

The providers listed in this directory do all they can (given limited resources) to meet the tremendous need for free and low-cost dental services throughout the state of Oklahoma.

There are two types of clinics/programs listed – free and low-cost. If you have some financial means, the nonprofit low-cost clinics and Federally Qualified Health

Centers (FQHCs) provide dental services at lower cost or sliding scale fees, with a short waiting period.

Free clinics and programs provide services at no cost and are made possible by volunteer dental professionals and support staff. The demand for these services is great, but the supply of volunteers is limited. Many have long waiting periods for restorative

services (such as dentures and fillings). Every effort is made to provide timely care to those in pain and at risk for infection.

It is highly recommended to always call the listed provider to confirm eligibility and availability of services. Most providers do not accept walk-ins and require appointments.
